PAPER L-SEALERS

PP 5060 L

PP 5060 L-P

pneumatic closure

+ motorised feet (optional)

Uses

Laundry

Garment manufacturing

Hotel trade

- ✓ Sealer specially designed to work with **PakinPap'** paper consumables (*more details on page 2*), equipped with 3 wide sealing strips and 2 cutting blades.
- ✓ Impulse welding: no heating time required, less power consumption, no risk of burns.
- ✓ Depth-adjustable reel holder to adjust the packaging to the size of the laundry pile.
- ✓ Depth-adjustable loading tray.
- ✓ Spreader for easy insertion of linen into the paper.
- ✓ Height-adjustable planking to adapt to the height of the package.
- ✓ Optional pneumatic closure of the sealing frame (reduces strain and the risk of MSD⁽¹⁾).
- ✓ Welding frame held in place by magnetic lock, then automatic opening of the frame at the end of the welding cycle (gas springs).
- ✓ 4 support feet mounted on 360° swivel wheels (with brake) and 3 position storage tray.

PAPERS CHARACTERISTICS

PakinPap' papers have been specially developed for use in dry cleaners and laundries.

Their **porosity** allows **moisture** resulting from laundry care to escape, and they are **sufficiently translucent** to identify the wrapped laundry and read any labels inside the package.

Two versions of paper are available:

Available in 600 mm wide rolls, **PAKINPAP'** paper rolls have a diameter of 200 mm and are **relatively light** (9 kg for the STANDARD version and 7 kg for the PREMIUM version), **making them easy to handle**.
