

ORA, YOUR PARTNER FOR
PACKAGING, CLOSING & SEALING

RANGE

The plastic-free packaging solution that keeps
linen and garment clean and looking their best.

PakinPap' papers :

the eco-friendly solution that
rethinks linen and garment packaging

Reduce the environmental footprint of your packaging while maintaining its essential functions : **protect the linen and enhance the care that has been taken with it.**

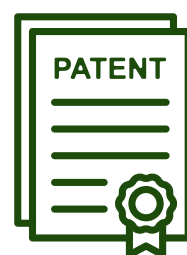

Zero plastic

These papers are plastic-free and coated with a natural wax that gives them heat-sealable properties. Once heated to a certain temperature by our sealers, the wax creates ultra-strong welds.

A patented innovation

These unique papers, which weigh only 23 and 27 g/m², have been patented by its manufacturer.

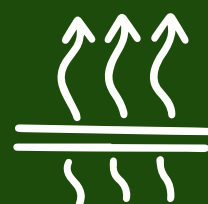

Recyclable

They come from PEFC-certified forests, and their recyclability in the paper and cardboard industry has been validated by the Centro Qualità Carta (Italy), in accordance with the "CEPI Recyclability Laboratory Test Method Ver.3 (2025)" standard.

Breathable and translucent

Their porosity allows humidity from laundry care to escape, and they are translucent enough to identify the garment packed with.

Addressing the specific challenges of your field

- Reduce the environmental footprint of your packaging
- Protect clean linen and garments during transport, storage, etc.
- Showcase your work to your customers
- Maintain your productivity to stay competitive
- Strengthen your CSR image
- Promote your brand, your company name *
- Anticipate more restrictive future legislation

Two versions of papers offered :

PAKINPAP' STANDARD

23 g/m²

For economical
daily use
