Uses

Laundry

Dry cleaner

Garment manufacturing

Hotel trade

PP H600 B-P
on stand,
pneumatic closure

- ✓ Packer specially designed to work with **PakinPap'** paper consumables (*more details on page 2*), equipped with 2 sealing strips and 2 cutting blades.
- ✓ Reinforced structure, great for intensive use.
- ✓ Creation of a cover to fit the garment, with welding and cut to the shape of the shoulders (optional kit).
- ✓ Space-saving wall-mounting or stand-mounting.
- ✓ Stand option + wheels option for easy movement of the packer.
- ✓ Pneumatic closure (optional) to facilitate work (reduces the risk of MSD⁽¹⁾).

PAPERS CHARACTERISTICS

PakinPap' papers have been specially developed for use in dry cleaners and laundries.

Their porosity allows moisture resulting from laundry care to escape, and they are sufficiently translucent to identify the wrapped laundry and read any labels inside the package.

Two versions of paper are available:

PAKINPAP' STANDARD
20 g/m²
For economical daily use

PAKINPAP' PREMIUM
25 g/m²
For superior strength and finish

Available in 600 mm wide rolls, Pakinpap' paper rolls have a diameter of 200 mm and are relatively light (8 kg for the STANDARD version and 6,6 kg for the PREMIUM version), making them easy to handle.
