pneumatic closure

Paper roll required

- Paper Standard (*white kraft*) Width 600 mm - 20g/m² - ref. ARPXX1-6020ST
- Paper Premium (*breathable*) Width 600 mm - 25g/m² - ref. ARPXX1-6020PR

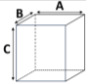

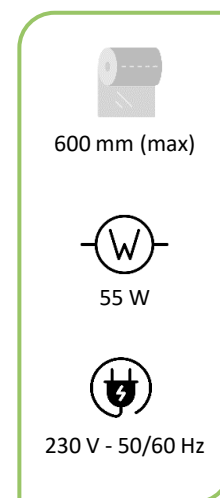

- ✓ Packer specially designed to work with **PakinPap'** paper consumables (*more details on page 2*), equipped with 2 sealing strips and 2 cutting blades.
- ✓ Reinforced structure, great for intensive use.
- ✓ Creation of a cover to fit the garment, with welding and cut to the shape of the shoulders (optional kit).
- ✓ Space-saving wall-mounting or stand-mounting.
- ✓ Stand option + wheels option for easy movement of the packer.
- ✓ Pneumatic closure (optional) to facilitate work (reduces the risk of MSD⁽¹⁾).

FOCUS ON PAPERS CHARACTERISTICS

PACKER OF HANGING CLOTHING

PP H600

PakinPap' papers have been specially developed for use in dry cleaners and laundries.

Their porosity allows moisture resulting from laundry care to escape, and they are sufficiently translucent to identify the wrapped laundry and read any labels inside the package.

Two versions of paper are available:

Available in 600 mm wide rolls, **Pakinpap' paper rolls** have a diameter of 200 mm and are relatively light (8 kg for the STANDARD version and 6,6 kg for the PREMIUM version), making them easy to handle.

PAKINPAP' STANDARD
20 g/m²
For economical daily use

PAKINPAP' PREMIUM
25 g/m²
For superior strength and finish

Specifications	STANDARD ref: ARPXX1-6020ST	PREMIUM ref: ARPXX1-6020PR
